

PROVEN PROCESS

DISCOVER

- Collaborate with you to understand the challenges that are specific to your dust, your facility, and your team.
- Determine if SonicAire is the ideal solution for your facility.
- Define the project budget with a clear understanding of all costs involved.

DESIGN

- Develop an engineered system specifically tailored to your facility and processes.
- Evaluate the true cost of different fan system options, ensuring the best fit for you and your budgetary needs.
- Present the proposed SonicAire solution, complete with quote and drawings.

DELIVER

- Receive proven products you can rely on delivered to your facility.
- Eliminate the hassle with turnkey installation by SonicAire certified technicians, or hire your own contractor.
- Trust SonicAire to train your employees on system use and oversee startup.

DEFEND

- Get ongoing support whenever you need it, guaranteeing optimal performance.
- Protect your investment with factory or on-site service and preventive maintenance.
- Prevent dust accumulation, eliminate the need for manual overhead cleaning, and experience a safer, healthier, more efficient work environment.
